About This Game

Wequer is an accessible turn-based tactics game with deceptive competitive depth. Take control of three distinct characters: a unit-birthing Worm, a spell-slinging Wizard, and a monster-killing Warrior. Take down the enemy Worm, Wizard, and Warrior to win.

Key Features

- **Play Online:** Play against your friends, or random opponents online.
- **Play Offline:** Practice against AI controlled bots
- **Build Your Army:** Gobble up seashells to create Wormling units. Units are autonomous once created, so no micromanagement.
- **Cast Spells:** Defend your allies with a magical shield, rain fireballs down on your enemies, or assemble the pieces to summon an all-powerful demon!
- **Variety:** Players purchase spells from the spell shop. Different spells go in and out of stock each turn, so you'll never play the same game twice.
